SCHOOL OPENS SEPT. 4TH

DATE FINALLY SETTLED UPON
FOR OPENING DAY

Announcements and instructions in
regard to preparations for
the new school year

It has been definitely decided that the Jasper Public School will open for the regular school term on September 4th, and both teachers and pupils are anxiously awaiting the sound of the old school bell as it once again calls them to their lessons in the school room.

The superintendent will be in his office at the school building on Friday and Saturday, Aug. 24 and 25 and also Friday and Saturday, Sept. 1 and 2 to attend to the classification and examination of scholars and to answer any questions that may be asked with regard to text books, tuition, pupils or any matter pertaining to the school.

The examinations for pupils who missed the final examinations of the last term of school, or those who failed in not more than two subjects; those who for any other cause do not know their classification, will be held on Friday and Saturday, Sept. 1 and 2 for the grades on Friday and for the High School and those desiring admission there on Saturday.

It is urged that all the pupils learn their classification before school opens that there be no delay in organizing the classes and beginning the term's work.

The applications for admission from outside pupils are coming as fast as to cause some apprehension as to whether all can be accommodated and it is therefore ruled that those first applying shall be the ones admitted should the school be overcrowded. Names may be left with the Superintendent or with any member of the Board or the Secretary of the Board, Mr. Dray.

The Course of Study is now about ready for distribution and it is desired that every patron of the school and any one else interested in the welfare of the school shall procure one of these beautiful booklets and acquaint himself with

the work that is to be done in the school this year. In this Course will be found a complete synopsis of the work to be done by each pupil during every year of his school life, the rules and regulations that govern his conduct, the courses to be given in the High School and many other items of interest to every one interested in the Jasper Public Schools. Persons having books belonging to the school library in their possession are requested to return them to the school house on Friday or Saturday of next week that they may be listed with the others in the new classification of the books.

Persons should provide their children with the proper text books before the opening of the term. These can be procured from local dealers in a week or 10 days. If there is any doubt as to what books are needed ask the Superintendent that no mistakes be made.

Yours for a successful school,
Leon H. Sweetland.

MAKES A TRADE.

Webb French Exchanges His Farm For
Webb City Feed Yard.

Webb French, the well known farmer living 5 1/2 miles northwest of Jasper has traded his 80-acre farm for a feed yard at Webb City. G. H. Redman is the gentleman with whom he traded.

Mr. French was down to Webb City the first of the week to look at the Webb City property and Mr. and Mrs. Redman were up yesterday to look at the farm. The Webb City property consists of 4 lots, a good six room house, and a large feed stable, with a good business.

Mr. Redman will move up to the farm at once and Mr. French expects to get moved to Webb City about September 1.

They Appeal To Our Sympathies

The bilious and dyspeptic are constant sufferers and appeal to our sympathies. There is not one of them, however, who may not be brought back to health and happiness by the use of Chamberlain's Stomach and Liver Tablets. These tablets invigorate the stomach and liver and strengthen the digestion. They also regulate the bowels. For sale by Webb Bros.

LOCATED IT AT LAST.

Hard Time To Locate A Corner
Building.

The work on the new building being built by Mr. and Mrs. C. E. Campbell at the corner of Grand Avenue and First street was commenced the first of the week. After the trenches had been dug for the foundation it was discovered that they were a foot off the line.

It took quite a deal of maneuvering too before they finally drove the peg down at the corner at the exact place where it is supposed that it ought to be. The county surveyor had bargained to come up to locate the lot, but up to Tuesday he had failed to put in his appearance. Consequently W. H. Harvey, the contractor for the building took the job to locate it, and this is the way he did it.

He took for his starting point the Webb building which was built according to a special survey by the county surveyor. By sighting along the east side of this building a stake was located a block north on Bell street. In exact line with the building and this stake and opposite the Campbell corner another stake was driven by measuring eighty feet, the width of the street east from this stake the west end of the Campbell lot was located. Eighty feet east of the stake on Belle street another stake was driven and by measuring from this stake the north and south lines were located.

In order to test the accuracy of the location found in this way the opera house building was taken as another starting point and as this came within an eighth of an inch of locating it in the exact spot as the former plan it was decided that it was near enough to risk going ahead with the building.

Epworth League.

At the usual monthly business meeting of the Epworth League of the Methodist Episcopal Church South at the parsonage Tuesday night it was decided to hold the devotional meetings at one hour before the preaching hour instead of at 5 p. m. as at present on and after the first Sunday in September. It was also decided that the League give an Ice Cream Social in the Church Grove next Friday night.

IT WAS A SURPRISE.

A Wedding That Took Place Two
Weeks Ago

It is seldom that a real important item fails to appear in the News on schedule time, but we must confess that one of the most important items which ought to have appeared in last week's paper failed to appear. This was the marriage of Ben Appleby and Miss Alberta Cather, two young people very popular in Jasper. The marriage took place at the home of Mr. Jeffrey at Lamar on Wednesday, August 2, the pastor of the Presbyterian church at that place officiating.

The marriage was quite a surprise to their many Jasper friends. They have occasionally appeared with each other but no one suspected that anything serious was liable to happen. It is said that even the immediate relatives and friends did not know of the coming event until the date of the marriage. Mr. Appleby was in the city on the day before and his presence was looked upon merely as one of his usual visits. It proved to be more than an ordinary visit, however, for the next morning he and his intended bride took the early train for Lamar where they procured the license and were married.

From Lamar they went to Ft. Scott, where Mr. Appleby has made his headquarters for some time. They took a short wedding trip through Kansas and returned to Jasper last Saturday. Ben left on his regular trip Tuesday but Mrs. Appleby will visit here till Mr. Appleby's future headquarters are decided upon.

Mr. Appleby who is a railway mail clerk now has been given a regular run from Springfield Mo., to Neodesha, Kansas, and he does not know whether he will make his headquarters at Springfield or Neodesha, and as soon as this is decided the young couple will go to housekeeping.

Mr. Appleby is the son of S. D. Appleby a former well known farmer of north-west of town. Ben is a fine young man and has been in the employ of Uncle Sam for a number of years, beginning as a rural carrier on route No. 2 from Jasper when it started and working up until he is now in the railway mail service.

The bride is the daughter of Mr. and Mrs. Henry Cather and has grown to womanhood in this locality. She is a

charming young lady, and well liked by all who know her.

Mr. and Mrs. Appleby have the hearty congratulations of their multitude of friends.

A NEW ORDER.

All Letters Must Bear A
Stamp.

Postmaster Wade has issued a new order in regard to mailing letters. Heretofore it has been the custom for parties not having stamps to put their letters into the letter box, and dropping in enough pennies to pay the postage. While this is all right when the pennies amount to enough to pay for all the unstamped letters, occasionally it causes trouble as was the case the other day when two letters were found in the box and only enough money to pay the postage on one of them. The predicament that Mr. Wade was placed in was to know which letter was entitled to the postage. To avoid this Mr. Wade now rules that all letters must bear the stamps and all who desire their letters to go promptly should be sure that they are stamped.
